

**Rail Splitter March 27 meeting announcement**  
**New location: Porky Oliver's**

***Bloom Energy: All thorns and no flowers for DE  
energy consumers***

**Special guest: John Nichols, Delaware's extraordinary  
energy activist**

**Wednesday, March 27  
5:30pm doors open, 6pm meeting begins**

**New Location--Porky Oliver's  
800 North Dupont Street  
Wilmington, DE**

As the United States is entering a revolution in lower cost and cleaner natural gas energy, DE has decided that higher cost, dirtier energy is better.

Through crony capitalism and misguided science, **Governor Jack Markell, Delmarva Power, and Bloom Energy** have united in a potentially unconstitutional energy subsidy scheme that harms consumers and businesses.

Two lawsuits with national implications are trying to stop this program.

**John Nichols**, with his encyclopedic knowledge and a party to both law suits will explain the **Bloom** story including his personal transformation from an everyday citizen to nationally recognized energy activist.

Also on the program:

**All candidates** for state wide Republican Party offices are invited to attend and speak briefly.

**Dave Gilefski** will provide an update on Republican events and initiatives.

**Marc "the Wizard" Wiener** will conduct another classic trivia quiz.

**George Ball** will provide political humor.

The **Rail Splitters of DE** is an independent Republican organization dedicated to rebuilding America and the Republican Party. Our meetings are free and open to the public.

***Reminder: Porky Oliver's is the new meeting location.***

Please attend. Bring others. *God bless America.*
